[Cache invalidation strategies for internet-based mobile ad hoc networks](#) - [psu.edu](#) [PDF]

S Lim, WC Lee, G Cao, CR Das - Computer Communications, 2007 - Elsevier
 ... report (MTS + UIR) scheme, respectively. We compare the performance of all these schemes as a function of query interval, **cache update interval**, and cache size through extensive simulation. Simulation results indicate that ...

[Cooperative Cache Invalidation Strategies for Internet-based Vehicular Ad Hoc ...](#)

S Lim, C Yu, CR Das - doi.ieeecomputersociety.org
 ... We conduct simulation-based performance evaluation of the four invalidation techniques along with the base case no- cache model to observe the impact of query interval, **cache update interval**, and data size on system performance, and communication overhead. ...
